

BRAVER™

An explorer-themed card game that teaches players how to navigate an ever-changing world

MENTAL HEALTH DECK

An easy & engaging check-in for behavioral health

BRAVER is an invitation to explore emotional and behavioral health issues with a fun, infinitely customizable card game that helps players feel seen and heard.

The premise is simple. Each box includes 2 decks of cards:

- ♣ 52 customized Question Cards &
- ♣ 52 standard Playing Cards*

**Reimagined with diverse racial, ethnic, and gender identities for more inclusive play!*

Choose any card game—Go Fish, War, Rummy, etc—then deal players in. Every time a Question Card comes up, stop play, and have everyone answer the question. Play continues until the game is over. Everyone wins as they get to talk about and learn what others are facing or fighting.

For more information, visit us at: www.BraverCardGame.com

For Schools & Family Agencies:

A safe way to share that also facilitates welfare checks for minor & vulnerable populations

For Companies:

A caring reminder to let employees know they aren't alone and introduce them to further resources

For Everyone:

A way to open lines of communication to listen and talk about sensitive issues we all struggle with
